

Kenmore Montessori has been purpose designed and built to honour the Montessori Method of teaching. Our classrooms are bigger than required, air-conditioned and fitted with fans.

In addition to the classrooms, we have a multi-purpose room that can accommodate specialist teachers, visitors, staff training, parent get-togethers, information sessions, parents' seminars and playgroup.

The outside playground features two types of sandpits, soft-fall and artificial grasses areas, children's gardening areas and lots of undercover shade areas. The Centre is a Sun Smart Centre and strict guidelines for sun safety are adhered to.
